

FOR IMMEDIATE RELEASE

## **Announcing an open editor-in-chief position for the journal: *The Journal of Exposure Science and Environmental Epidemiology***

HERNDON, VA, April 4, 2016 - *The Journal of Exposure Science and Environmental Epidemiology* is now accepting applications for the open editor-in-chief position to start in January 2017.

Springer Nature and the International Society of Exposure Science (ISES) announce the exciting opportunity for an exceptional candidate to serve as Editor-in-chief for *The Journal of Exposure Science and Environmental Epidemiology* (JESEE). The position will be for a five year term beginning in January 2017.

JESEE publishes imperative environmental health research that has presented significant advances in exposure science and environmental epidemiology as it relates to the complex inter-relationships between human populations; chemical, biological, and physical agents; ecosystems; and non-chemical stressors.

Candidates for this position should have a Ph.D., M.D., or equivalent, as well as a comprehensive knowledge and understanding of the field of exposure science and epidemiology, a distinguished research and publication record, high standing among peers and prior experience with peer-review publication in exposure science or a related discipline.

Responsibilities include timely review of manuscripts under consideration by the journal, collaborating with the Publisher and the ISES Publication Committee, participating in regular teleconferences with Springer Nature and ISES, and commissioning submissions in areas of interest and scope. The editor-in-chief will work closely with Springer Nature on journal development to raise JESEE's impact and advance the field of exposure science. For more details of the role, please read the full description [here](#).

Appointment to the position includes an annual editorial stipend and ISES membership. To apply, candidates must submit their curriculum vitae, three references, a brief plan to improve the journal content and quality, and the candidate's vision of the future of exposure sciences to Elizabeth Yeppez, Senior Publishing Manager of JESEE, at [e.yeppez@us.nature.com](mailto:e.yeppez@us.nature.com). Application deadline is May 30, 2016.

## **About ISES**

The International Society of Exposure Science (ISES), formerly the International Society of Exposure Analysis (ISEA), was legally established in 1990 to foster and advance the science of exposure analysis related to environmental contaminants, both for human populations and ecosystems. The society's members include academic, governmental and private sector scientists who have a common interest in the field of exposure science. Students and young scientists entering this field are encouraged to join and benefit from special programs. The society actively promotes engagement and communication among all disciplines involved in exposure science through its annual meetings and scientific journal (*Journal of Exposure Science and Environmental Epidemiology, JESEE*) and serves as a resource for scientists in other disciplines, governmental officials and the public. The society endeavors to promote rigorous use of exposure science to strengthen environmental policy for the protection of public health. Visit ISES [here](#) for more information.

## **About Springer Nature**

Springer Nature is a leading global research, educational and professional publishers, home to an array of respected and trusted brands providing quality content through a range of innovative products and services. Springer Nature is the world's largest academic book publisher, publisher of the world's most influential journals and a pioneer in the field of open research. The company numbers almost 13,000 staff in over 50 countries. Springer Nature was formed in 2015 through the merger of Nature Publishing Group, Palgrave Macmillan, Macmillan Education and Springer Science+Business Media.
