

NIH Epidemiology Postdoctoral Fellowships at NIEHS

We are seeking several talented and motivated individuals with a *doctoral* degree and training and experience in epidemiology to participate in ongoing research programs within the Epidemiology Branch at the National Institutes of Health / National Institute of Environmental Health Sciences (NIH/NIEHS). Please visit the Branch website for research group descriptions:

<http://www.niehs.nih.gov/research/atniehs/labs/epi/index.cfm>

Located in Research Triangle Park NC, the NIEHS is located near the University of North Carolina at Chapel Hill, North Carolina State University, and Duke University with opportunities for interactions and collaborations. The Epidemiology Branch supports several large multi-outcome cohort studies and maintains a large Repository with biological and environmental samples from completed and ongoing studies, offering opportunities for add-on studies and analyses to address a wide-range of hypotheses:

<http://www.niehs.nih.gov/research/atniehs/labs/epi/studies/index.cfm>

These positions **require** a **doctoral degree**; a background in the Group-specific area of research is beneficial, but not required.

Salary and benefits are highly competitive and commensurate with experience and accomplishments. Initial appointments are two years with additional years possible depending on productivity and availability of funds.

Applications will be considered as received. **Applicants should submit the following materials to epifellowships@niehs.nih.gov:**

- Letter describing areas of research interest
- Curriculum vitae with bibliography
- Copies of 1-2 recent publications
- Contact information for 3 individuals serving as references

The NIH is dedicated to building a diverse community in its training and employment programs.
