

## **ISEE Offers Support to Regional Chapters and Local Groups**

At the ISEE Annual Conference in Mexico City, September 2007, the ISEE Council discussed and agreed to offer financial support for its regional chapters and local groups, in the form of small grants (~USD500 to 1000) for activities that will assist the development of regional ISEE activities, including the boosting of membership.

The Council invites proposals from existing ISEE regional chapters and local groups. Proposals should be submitted in writing to the ISEE Secretariat, Attention Carol Rougvie, c/o JSI Research and Training Institute, 44 Farnsworth Street, Boston, MA 02210 USA; email: [crougvie@jsi.com](mailto:crougvie@jsi.com).

The proposal should be clear and succinct (no more than two pages), with a statement as to how the activity will enhance the work, status and future success of the chapter or local group. The Council will review within a month any proposals thus received.

The ISEE Council looks forward to reviewing proposals from its chapters and local groups to support new initiatives on behalf of the Society.
