

Past Member Initial Report

Overview: Past members of ISEE who have not renewed their membership for at least three years surveyed from 05/16/16 - 05/30/2016. The survey was sent out to 221 members. Of those, 28 members started the survey and 24 members finished the survey for a complete response rate of 11%. Information has been aggregated where possible and potentially identifying information has been removed.

1. We would like to know why you have chosen to let your ISEE membership lapse. Please let us know if the following reasons contributed to your choice to not renew your membership:

Other reasons

Nearing retirement or retired

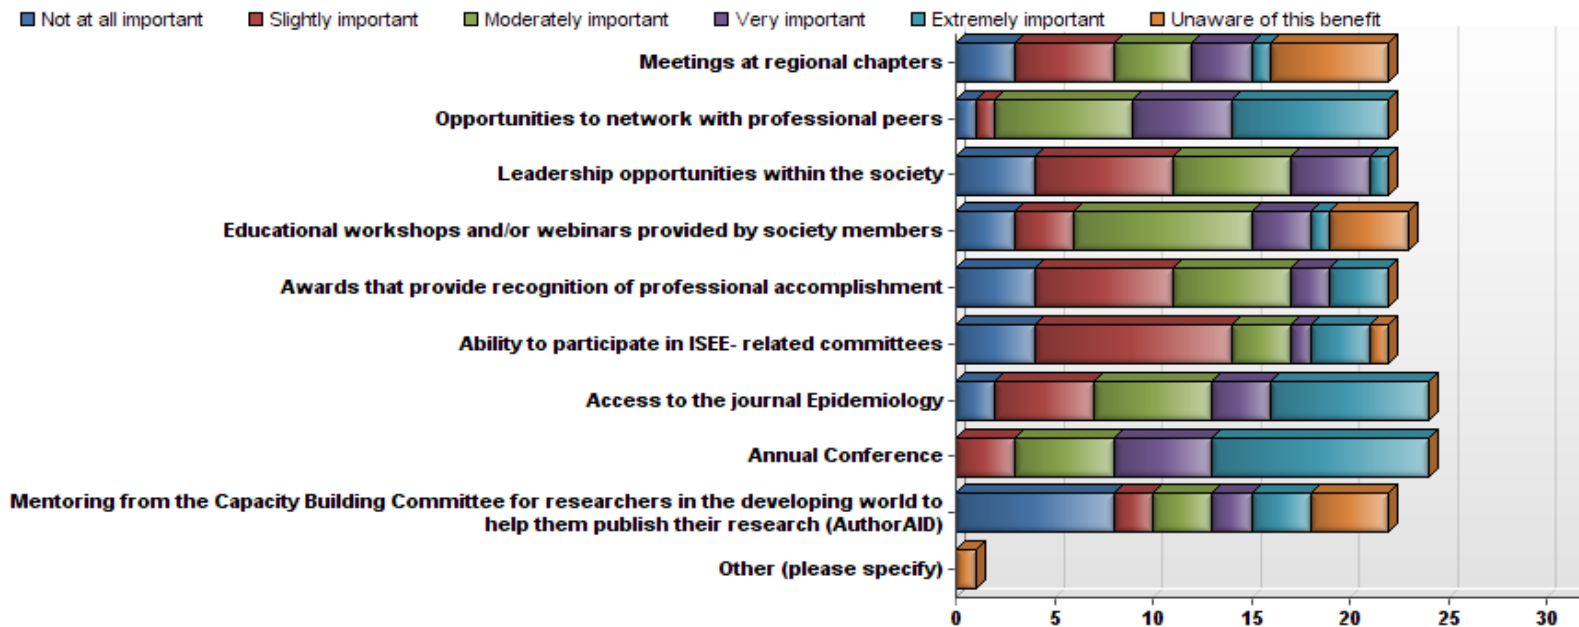

I can access Epidemiology through the library.

I am opposed to the political stance of ISEE

2. Could you please let us know what ISEE could do that would bring about your membership renewal?

Have plenary speakers be more sensitive to diverging socio-political points of view.
Reduce financial barriers of membership and conference / edit fee structures for different membership categories
Organize more regional conferences
Make membership automatically included in conference attendance, not a separable fee, so that it can be paid with conference registration for government attendees.
Diversify the topics for instance include more occupational health epidemiology

. What membership benefits were the most valuable to you?

4. The annual conference almost always takes place in late August/early September. Did the timing of the annual conference influence your decision to not renew your membership?

Answer	Response	%
Yes	5	22%
No	14	61%
No opinion	4	17%
