Title: Open Rank Professor - Environmental and Occupational Health Sciences (Job ID #126920)
Department: School of Public Health/Environmental and Occupational Health Sciences
Category: Faculty
Location: Chicago
Close Date: 03/31/2020

The University of Illinois at Chicago (UIC) School of Public Health (SPH) Division of Environmental and Occupational Health Sciences (EOHS) announces the search for one or more tenure/tenure-track faculty members at the assistant/associate/full professor level.

The EOHS Division of UIC SPH has a dynamic, multi-disciplinary and impactful portfolio of research and service that reflects our values of community engagement and equity. Programs addressing climate change and environmental health include the CDC-funded BRACE project (Building Resilience Against Climate Effects), ATSDR/EPA-funded Great Lakes Center for Reproductive and Children’s Environmental Health, and the NIEHS-funded CACHET (Chicago Center for Health and Environment). Many opportunities exist for research collaboration with faculty in SPH, the health sciences colleges and across the University in the fields of environmental epidemiology, occupational and environmental medicine, health disparities, and public health policy. As one of the premier research institutions in the US, collaboration can be pursued with faculty in the health sciences colleges, engineering, urban planning, liberal arts, and many others. A joint appointment with appropriate cognate departments or centers is possible.

UIC is one of the most diverse research-intensive universities in the United States, and is designated as a Minority Serving Institution, an Asian American and Native American Pacific Islander-Serving Institute, and a Hispanic Serving Institution. The EOHS Division is committed to ensuring access to graduate education for students who are diverse across multiple dimensions, including: race, ethnicity, gender, age, disability, disadvantages socioeconomic status, ideas and perspectives. We encourage applicants that will enrich and contribute to the diversity of the EOHS Division and help us expand the perspectives and experiences we bring to our work.

For fullest consideration, applicants should submit their CV, names and contact information of three references, and a one-page document that summarizes their approach to teaching and their research goals by February 14, 2020.

The University of Illinois at Chicago is an affirmative action, equal opportunity employer, dedicated to the goal of building a culturally diverse and pluralistic faculty and staff committed to teaching and working in a multicultural environment. We strongly encourage applications from women, minorities, individuals with disabilities and covered veterans.

The University of Illinois conducts background checks on all job candidates upon acceptance of contingent offer of employment. Background checks will be performed in compliance with the Fair Credit Reporting Act.

Duties:
As a tenure/tenure track faculty member, the successful applicant will be expected to teach graduate courses in the School of Public Health, mentor graduate students, and conduct collaborative, extramurally-funded research.

Qualifications:
A Ph.D. (or equivalent) in environmental health, health economics, health policy, a relevant engineering discipline or a related field is required. The candidate must have a robust record of research on the impact of climate change on the public's health. We are particularly interested in candidates with expertise in climate change mitigation, adaptation, and risk assessment/risk communication. Past evidence of or potential for excellence in teaching is desirable, as is a commitment to addressing environmental and occupational health inequities.
